Summary

New graduate seeking a professional career in 2D animation. Possesses a highly technical approach, with the goal of precision in all aspects of a given animation.

Software

- Clip Studio Paint. Preferred animation pipeline.
- Adobe Photoshop, Premier, InDesign
- Davinci Resolve

Skills

- Project and Time Management
- Visual and Audio editing
- Life Drawing

Experience

- Self-Directed two animations from concept to completion, both including full sound scapes. A strong representation of my blooming skills as an animator, and working well with a tight schedule to turn out a complete product.
- Variety of miscellaneous personal animations, including effects work and character animations. A continuing exploration of technical aspects of animation for personal improvement.
- Multiple drawings and illustrations involving characters and/or environments, done both digitally and with physical mediums.
- Field Production course which involved recording and editing several video projects. Established knowledge of pacing and rhythm for full-length stories, including the importance of consistent framing.

Education

AUGUST 2017 - MAY 2021

Northern Illinois University, Dekalb, IL - *Bachelor of Science in Arts*

Awards

Dean's List at Northern Illinois University in Fall 2020.
